

# Relief & Reverse Arthritis And Joint Pain

## "Add Fishkol Premium Plus™ Tri-Peptide Collagen For Faster Results, Especially For Advanced and Severe Joint Problems"

Because we understand how extremely hard it is to deal with joint pain, we are introducing Fishkol Premium Plus™ Tri-Peptide Collagen to ACCELERATE results.

Our Fishkol Premium Plus™ is designed to work alongside Fishkol® Collagen for BETTER, FASTER, MORE NOTICEABLE RESULTS.

This combined dosage is especially effective at preventive and improving the symptoms of joint and bone disorders, arteriosclerosis and photo-aging caused by ultraviolet rays for people with advanced and severe cases.

Fishkol Premium Plus™ is an advanced material with new functionality to bring you this next-level natural joint health solution.

Fishkol® tri-peptide collagen is a short protein made up of a minimum unit of collagen composed of a chain of three amino acids (Gly-X-Y) with X & Y being an optional amino acid.

Therefore it can be absorbed easily and quickly in our body and exert superior performance. Only a small amount is required to produce measurable results.

Fishkol Premium Plus™ contains “conditional” amino acids. They are non-essential amino acids that become essential in some conditions, such as regenerates cartilage and heals joints. And your body doesn't produce them well due to stress, poor diet, aging or illness.

By replenishing supplies of certain combination of vital amino acids, Fishkol Premium Plus™ Tri-Peptide Collagen give your body the nutrient it needs to repair damaged joints in the most natural way.

These vital amino acids combination contribute to Fishkol Premium Plus™ healing properties.

It SIGNIFICANTLY increases the bioavailability and absorption rate to regrow and rebuild your joints by adding NEW LAYERS of the soft, flexible cartilage that keeps you feeling young and pain free... without the risk of costly surgeries or addictive drugs.

Cartilage is the soft, pillowy padding that keeps your bones from grinding against each other.

But as you get older, that comfortable padding starts to wear thin. It's made worse by muscle imbalances that cause excessive and uneven wear and tear.

Over time, the friction you feel in your joints start a chain reaction of inflammation, burning, discomfort, and agonizing pain.

Fishkol<sup>®</sup> collagen and Fishkol Premium Plus<sup>™</sup> combination are the most concentrated, absorbable and potent form of collagen for cartilage rebuilding, joint-lubricating that work synergistically to give you that cushion of comfort and relieve your pain.

Fishkol Premium Plus<sup>™</sup> contains a whopping of 10-20% Tri-Peptide Collagen with each bottle packing in 150G. **Taking just 3-5g a day along with Fishkol<sup>®</sup> Collagen will help turbocharge your results.**

Use this combination to get real joint-strengthening results. And remove problems with your joints and bones!

We know how hard it can be just to make it through a day when you are in pain and discomfort. The impact it is having on your health and lifestyle.
